Subject: Ford - 2018 MY EPA Certification Preview - 12/1 (Thurs) 3-5.
Attachments: Final_2018MY_EPA_Certification_Preview_11302016.pdf

Dan, attached is the final version of the 2018 MY Ford Certification Preview Document we plan on presenting to you tomorrow (12/1) from 3-5.

As previously mentioned I plan on bringing approx. (20) hard copies to the meeting.

I have been to the EPA lab portion previously, but not the office complex. Is the entrance to your building off of Traverwood? Also, any chance the conference room is available around 2:45? Just wanted to try and get all set-up prior to the meeting to avoid delays in case of issues.

Thanks again for your assistance in setting up the meeting.

Subject: FW: 2018 MY EPA Certification Preview - 11/10 (Thurs) 3-5.

Dan, preparing for Ford's 2018 MY EPA Certification Preview with you next week, and just had a couple of logistic questions....

1. Will you be the main contact for Ford personnel attending the meeting at EPA when they arrive? Or is the preference for a different contact?
2. A Web-ex meeting has been set-up, which is Ford's online conference call software.
 - Is there public/guest Wi-Fi available in the conference room?
 - Is there access to a speaker phone in the conference room?
 - Is there a projector in the conference room?
3. Hard copies of the document will be provided for the meeting. Approximately how many copies will be required for EPA personnel attending?

Currently, 8-10 individuals from Ford are planning on attending at EPA: Glen Heiser, Neil Whitbeck, Mike Landry, Ed Kulik, Craig Smith, Ken Middleton, Matt Duffy, Todd Crompton, and myself.

There a couple of final minor updates to the preview document I'm expecting to receive by COB today. The plan is send you an e-copy of the document on Wednesday morning.

If you have any questions please let me know. Look forward to meeting your team on Thursday.
Thank you for the support.

Dan, currently the best fit for the Ford team is from 3-5 on Thursday, November 10th.
Just want to confirm that is still available for the EPA team, correct?

Thanks again for the correspondence.

Subject: RE: 2018MY EPA Certification Preview - Availability

Wade,

No need to apologize. I have to walk my original proposal back. I spoke with Linc, and due to other constraints, Linc would like to delay the meeting until the 2nd week of November – 11/7 through 11/10 (the 11th is our Veteran's Day). M, Tu, or Wd 2-4 or Thursday 3-5.

Can this work with your team's schedule?

Dan

Subject: FW: 2018MY EPA Certification Preview - Availability

Dan, I apologize in advance for all the email traffic on this topic and the request of change. It appears the Ford team would like to request a 2 hour block of time in the afternoon of Thursday, November 3rd. Please advise on EPA's availability to meet at that time.

Again, please let me know if you have any questions and thanks again for the consideration.

Dan, any estimates on when EPA's possible availability to meet for the 2018 MY EPA Certification Preview might be identified?

Thank you again for the consideration.

Subject: 2018MY EPA Certification Preview - Availability

Dan, I am the main contact for the 2018 MY EPA Certification Preview. This is typically a 2 hour meeting with Ford and EPA at your offices in Ann Arbor to discuss Ford's 2018 MY certification plans. The topics discussed are usually the new 2018 MY car/truck products, new technologies related to certification, Ford test facility updates, misc. certification and fuel economy items, and other unique Ford vehicle specific test procedures and processes. Ford's mandatory EPA confirmatory picks (new vehicles, new engines, etc.) are typically identified and the yearly re-approval of Ford's durability process. I will provide hard copies of the document and supporting attachments for the meeting and intend to send you an electronic copy of the document w/attachments a couple of days prior to the meeting.

Action Required:

- Currently looking to target the last week of October (24-28) for our meeting and require your feedback on EPA's possible availability. EPA representatives that attended last year include: Joel Ball, Tony Fernandez, Dave Good, Jim Snyder, Bill Pidgeon, and David Wright. Please let me know possible dates/times that EPA could meet during or beyond the last week of October, and I'll coordinate the availability from Ford to match.

If you have any questions and/or concerns please let me know.
This is my first EPA certification preview meeting and look forward to meeting with your team.
Thank you.
